

HAZARDOUS WASTE PERMIT MODIFICATION APPROVALS 07/01/17 – 06/30/18

Overview

Under the Virginia Hazardous Waste Management Regulations (VHWMR) the Department of Environmental Quality (DEQ) must maintain a list of approved hazardous waste management permit modifications. This list must be updated annually. In addition, a notice must be published in a statewide newspaper that an updated list is available for public review. Table 1 below provides information regarding the permit modification approvals that were issued during the most recent state fiscal year ending on June 30, 2018.

Table 1–Hazardous Waste Permit Modification Approved in State Fiscal Year 2018

This table provides information about hazardous waste permit modifications approved by DEQ between July 1, 2017 and June 30, 2018. It includes the following information: facility name and location, EPA identification number, the classification of the permit modification, a summary of the modification and the date of approval. Permit Modification Classifications are defined in [40 CFR § 270.42](#).

Facility Name and Location	EPA Identification Number	Permit Modification Class	Summary of Modification	Date of Modification Approval
Safety-Kleen Systems, Inc. Vinton, VA	VAD000737361	Class 1	Contingency Plan	7/11/17
Norfolk Naval Shipyard Portsmouth, VA	VA1170024813	Class 1	Administrative and informational changes, replacement of functionally equivalent equipment and Contingency Plan	8/25/17
Bohler-Uddeholm Corporation South Boston, VA	VAD089022685	Class 2	Corrective Action Remedy Selection	9/8/17
